FEATURES

- Designed for Rigid Applications
- Developed for LED and Conventional UV Lamps
- Superior Media Adhesion
- High Density Colour
- GREENGUARD Gold Certified
- Supported by NUtec Digital's Ink Delivery System (IDS) Warranty

OVERVIEW

Amethyst A20-RIG is a premium quality rigid UV ink designed for a wide range of rigid applications.

The Amethyst A20-RIG is suitable for use without primer, on a large variety of rigid substrates, including: Polycarbonate, Melamine, Fluted Polypropylene as well as Decorative Applications on Glass, Acrylic and Ceramics.

This formulation features a superior colour gamut for bright, vivid images.

It is GREENGUARD Gold certified to the highest standards for health-based chemical emissions, ensuring the ink is acceptable for use in sensitive environments, such as schools and hospitals.

Provided the inks are used in regular applications, using suitable substrates, the printed images will not fade unduly for up to 24 months.
