

cleaning  
solution

**MF**

## FEATURES

- For Wide Format solvent inks

### USED FOR:

- General Maintenance
- Conversions
- Storage Fluid

## OVERVIEW

NUtec's MF is a cleaning and flushing solution for Epson print heads and is to be used in conjunction with NUtec's Wide Format Solvent digital printing inks.

Note that no other cleaning/flushing solution is to be used with NUtec inks and the MF cleaning solution is not to be used with non-NUtec inks.

The standard NUtec conversion procedure is to first flush with the existing ink's flush, secondly using NUtec's MF and lastly the NUtec Wide Format Solvent ink set.

For information regarding NUtec's recommended flushing procedures, please refer to technical document GN007 found at your nearest dealer.
