R20-HYB

FEATURES

- Designed for Rigid and Roll-to-Roll Applications
- Fast Curing
- Optimised for LED UV Lamps
- Good Media Adhesion
- Supported by NUtec Digital's Ink Delivery System (IDS) Warranty

OVERVIEW

Ruby R20-HYB is a general purpose fast curing Hybrid UV ink designed for rigid and roll-to-roll applications and is optimised for LED UV lamps.

Ruby R20-HYB is an excellent, hybrid UV ink with impressive flexibility for roll-to-roll applications while also providing good adhesion on a wide variety of rigid substrates. The R20-HYB is a hybrid ink that bridges the gap between rigid and roll-to-roll ink, providing the convenience of both in a single product.

The R20-HYB performs well in a demanding, high speed printing environment.

This formulation is designed for compatibility across a broad range of printer models and features a superior colour gamut for brighter, more vivid images.

Provided the inks are used in regular applications, using suitable substrates, the printed images will last for up to 24 months.

PRINT HEAD COMPATIBILITY	Ricoh® {MH5420/5440 Gen 5, MH5220 Gen 5s}; Kyocera® KJ4A
PACKAGING CONFIGURATIONS	1L bottles
COLOURS AND SHELF LIFE	CMYKLcLm – 15 months
SHIPPING AND STORAGE INFORMATION	Storage & transit temperatures: +5°C to +35°C Store in a cool, dry area, not directly on the floor and away from direct sunlight
OPERATING SPECIFICATIONS	Temperature: +19°C to +28°C. Relative Humidity: 30% to 80% Non-condensing To be used in conjunction with NUtec maintenance and cleaning solutions
