Q50-HYB

FEATURES

- Designed for Roll-to-Roll and Rigid Media
- Developed for LED
- Ideal for High-Speed printing
- Excellent Media Adhesion
- Supported by NUtec Digital's Ink Delivery System (IDS) Warranty

OVERVIEW

Quartz Q50-HYB is a cost-effective hybrid UV-curable ink developed for a wide range of rigid and roll-to-roll applications. This wide format digital printing ink is designed for LED lamp curing.

The Q50-HYB is a hybrid ink that bridges the gap between rigid and roll-to-roll inks, providing the convenience of both in a single product.

Recommended substrates for printing with Q50-HYB inks include self-adhesive vinyl, poster paper, HIPS board, correx, foam board (forex) and acrylic used for advertising and promotional purposes.

Provided the inks are used in regular applications, using suitable substrates, the printed images will last for up to 24 months.

PRINT HEAD COMPATIBILITY	Konica Minolta [®] KM1024i and Ricoh [®] Gen 5, Gen 5s & Gen6
PACKAGING CONFIGURATIONS	1L and 5L bottles
COLOURS AND SHELF LIFE	CMYKLcLm - 15 months. Clear – 15 months. White - 12 months.
